ATAG – boilers you can trust

For almost 70 years, we've been committed to manufacturing super-efficient boilers to the highest possible standard

It's this dedication to excellence that's seen our boilers win 'Best Boiler' for the last 8 years in our native Holland.

We're the only boiler manufacturer to sell our products exclusively to carefully selected Gas Safe registered engineers, to give you peace of mind they're fitted properly and safely.

In addition to saving you money through energy-efficiency, our compact boilers are also extremely reliable. Built to last over 18 years, with up to a 10 year product warranty and also a lifetime replacement guarantee on our iCon heat exchanger engine.

And once your boiler is installed, should you require it, our after-care warranty helpline service is available 24 hours a day, 7 days a week.

Visit www.atagheating.co.uk for more information.

Everyone loves ATAG

Here's what people are saying about ATAG boilers. Find out more at independent online review website uk.trustpilot.com

“As a heating engineer, I’ve fitted many brands of boiler and ATAG in my opinion is the best out there for domestic clients. These are the only boilers I recommend. I’ve fitted one in my mum’s and my own house too.”

Phil Finchett

“Just received our first gas bill after the ATAG was installed and it’s 20% cheaper than our old boiler! Great investment for us!”

Erin May

“Very impressed with our new boiler. It’s quiet, efficient and has the ability to serve two showers simultaneously. The weather compensation system not only helps us reduce our gas consumption, but it also ensures a constant ambient temperature in our home. Would highly recommend.”

Mr McKay

“Gas Safe Register welcomes ATAG Heating Technology’s initiative to increase safety levels in the UK by only supplying their products direct to Gas Safe registered professionals to install.”

Jonathan Samuel, Gas Safe Register CEO
